

ATTENTION CONTRACTORS

The Neighborhood Preservation Program (sponsored by Contra Costa County Department of Conservation and Development) is looking for general contractors to participate in our Home Rehabilitation Program.

What Is The Neighborhood Preservation Program?

It is a 38-year old home loan program that offers low-income homeowners home loans to rehabilitate their properties. We need general contractors to bid on these jobs and to do the work. Your payments are overseen and released by the program, so there is generally a three-day turn around in receiving your progress payments.

What are the contractor's eligibility requirements?

- B class contractor's license by the State Contractors License Board.
- Good workmanship, customer friendly.
- Certified for Home Improvements by the California State Licensing Board.
- Must meet the program's insurance requirements.
- Lead certified, a plus!
